

AMOGH KULKARNI

3278 Bransley Way, Duluth, GA 30097 | (763) 203-2293 | akulkarni25@student.gsu.edu

EDUCATION

Georgia State University

Atlanta, GA

- Cumulative GPA: 3.81

May 2026

- Relevant Courses: Big Data Programming, Software Engineering, System-Level Programming, Operating Systems, Data Structures

Honors: University of Minnesota Talented Youth Mathematics Program (HS): probability theory, algebraic geometry, multivariate calculus

WORK

MisticusMind

Spring 2025 - Fall 2025

- Used machine learning concepts and generative AI tools for the ContractGenius project to create and update sample construction contracts by matching key terms and condensing information

PROJECTS AND RESEARCH

Pathway Skill Builder

Fall 2025 - Present

- Currently creating a website that uses generative AI to suggest coding challenges and projects to build missing skills, as well as simulate job interviews and keep track of deadlines

K-Dance

Summer 2025 - Present

- Currently designing a program that analyzes dance videos using the joint detection tool OpenPose and quantitatively determines its accuracy to professional choreography

Automotive Accident Analysis Tool

Spring 2023

- Applied interactive filters using Shiny to selectively visualize data in R on car accidents in Tempe, Arizona based on location, number of injuries, weather conditions, and more

Financial Crisis Modeling and Visualization

Spring 2023

- Analyzed the severity of the 2008 Great Recession on different states in 21st-century America
- Utilized R visualization tools such as dplyr, usmap, and ggplot2 to demonstrate the varying effects of bank closures for all US states

Economic Wage Model of Southeast Asian Workers

Summer 2023

- Used log linear regression in STATA to model the effects of education and experience on starting wages of Thai factory workers in the 1990s
- Tested for heteroskedasticity in the data using Eicker-Huber-White standard errors and concluded that education was not a relevant factor in determining starting wage

“Growth of Paris”

Fall 2018 - Spring 2020

- Wrote a paper about Paris’s historical growth from 250 BC to the present, which received 2x Meritorious Award from the Minnesota Scholars of Distinction Program

“Relationships Between Gifted Siblings”

Fall 2021

- Published article in Parenting for High Potential periodical on how gifted siblings build educational techniques together

EXPERIENCE

Mathematical Methods in the Physical Sciences II

Spring 2021

- Graded undergraduate mathematics problem sets and led office hours for Professor Kale Davies

Innovate Instruction, Ignite Learning!

Spring 2020 - Summer 2021

- Co-founded non-profit to lobby key Minnesota representatives in order to pass a legislative bill increasing funding for gifted education

National Academic Quiz Tournaments

Writer

- Drafted quiz bowl questions for national tournaments held in Atlanta and Chicago, hosting over 250 teams

Independent Tournament Director

- Organized multiple national tournaments for 32 college and high school teams
- Founded Georgia State University’s quiz bowl team, acting as president and treasurer, which won the 2024 ACF Regionals

SKILLS

Programming Skills: Python, SQL, C, Java, R

Tools: Visual Studio Code, R Studio, PyCharm, Jupyter Notebooks, Microsoft PowerShell, Agile
